School Lunch 1:

**Brief:**
You have been given the coins below to buy lunch at the school canteen. Your job is to plan at least 6 different lunches that you could buy with the money. You will need a copy of your school’s canteen menu.

![Image of coins]

**Key questions to think about:**
1. How much money do you have?
2. What coins will be needed to buy the items you select?
3. How much money will you have left?
4. What different lunches can you buy with the money you have? How much money will you have left each time?

**What you need to hand in:**
1. At least 6 different lunch orders. For each order show:
   - How much money you will start with
   - What you will buy
   - What coins you will need to pay for your lunch
   - How much change you will have
