12-month Professional Learning Project

This project improves primary mathematics results for all learners and is suitable for pre-primary, primary and junior secondary teachers. As best results are obtained when schools send a small team supported by a leader, free whole-school resourcing and support is provided for these schools*

When: **Term 1:** Thursday 7th + Friday 8th March **Term 2:** Friday 17th May
Term 3: Thursday 18th + Friday 19th July **Term 4:** Friday 15th November

Where: **Collier Primary School**
17 Hobbs Avenue, Como WA 6152

Times: 8.00am registration, then 8.30am – 3.30pm each day

Cost: **\$1750*** - **\$1850 per person** (limit of 4 staff per school)

*Pay \$1750 per attendee when sending a team of 3 to 4 and receive whole-school website access for 12 months, plus whole-school access to the 2024 Webinar Series, so that you can use the materials and online support for everyone once you are ready.

Optional Extra: \$1900 - Data Analysis Report for your school

For more information, and to register, visit

<https://backtofrontmaths.com.au/events/WA-IP-2024>

Project limit of 35 attendees, maximum 4 attendees per school

What you get:

- **6 x catered, live-training days: spread throughout 2024**
- **Individual website access** to Back to Front Maths for 2024*
- **Individual access to live webinar sessions**, run twice per term, and ongoing access to the recordings for 2024*
- **Project manual**
- **3 x Interventions Books**
- **Game Cards** or **Interleaved Maths Essential Connections Pack** (Year 11 or 12)
- **Access to new Stage Testing and Tracking** (exclusive to our Project schools)
- **Exclusive access to new Back-to-Front Maths and Assessment materials for AC9** as they are written, before they are released to the public

All schools also receive:

- **Mentoring support for all attending leaders**
- **A whole-project report** which includes data on progress in key numbers

Optional Extra: Purchase a **Data Analysis Report** for targeted and site-specific recommendations based on an analysis of the patterns in your NAPLAN and PAT M progress data. The analysis begins with calculating growth for every individual student based on their starting score, finds patterns across cohorts and sectors, and provides visual displays of findings for use in annual reports and audits.
