Please take a moment to review our

Membership Terms and Conditions

Thank you for joining the Back-to-Front Maths Family!

Whether you are given a trial, purchase a membership, or are provided with a complimentary subscription to Back-to-Front Maths by Kennedy Press Pty Ltd, you agree to the following conditions of the relevant membership level.

Trial Memberships

Trial memberships allow a single-user, or multiple users (depending on the level provided) to view and evaluate member-only content for a limited time. It is not permitted to print, photocopy, or use member-only content with students or staff during the trial period. Subject to copyright, there are no restrictions on printing, copying, or using content that does not require a login or password.

Individual trial members can renew their membership at a discounted rate. Schools wishing to purchase a subscription are asked to contact our Admin team to discuss this option.

Individual Website Membership

This tier allows a single subscriber to log in to the site to print, photocopy and use member-only content, for the membership duration. Subject to copyright, there are no restrictions on printing, copying or using content that does not require a login or password. Sharing your login is not permitted on this membership tier.

Numeracy leaders or coaches can use this tier to utilise member-only content with classes they are conducting, and with staff they directly mentor/assist (up to 10 lessons per teacher). You must upgrade to a whole-school membership to provide member-only content to teachers who aren't receiving direct mentoring or assistance.

Subscribers on this tier can renew their membership at a discounted rate. A discount code will be emailed before the membership expires.

Whole School Website Membership.

This tier allows multiple staff (i.e.: Leaders, administrative staff, and teachers, including relief and aides) to access the site simultaneously, using the same login details, to print, photocopy, and use member-only content for the membership duration. Subject to copyright, there are no restrictions on printing, copying, or using content that does not require a login or password. Sharing the login outside of the school is not permitted.

Numeracy leaders or coaches on this tier can utilise member-only content for the classes they are conducting, for staff/teachers they are directly mentoring/assisting, and for staff/teachers not receiving direct mentoring or assistance.

Class/Grade subscribers may share their login with a maximum of two teachers only.

Total school enrolment numbers or teacher/student ratios determine the membership tiers for Whole School and Class/Grade Memberships. Schools must review the total student enrolment (or class numbers) to determine whether the membership level needs to be adjusted before renewal. A quote will be emailed to the account holder before membership expires.

FAQs

What is Member-Only content? Member-only content includes activities for all grade levels, such as lesson plans, Journal Problems and Blast Activities, Moderating tasks, assessment criteria sheets, and planning tools. It includes access to the Moderation and Assessment Resources portal and professional learning videos.

Can I continue to use member-only content if my membership expires or is it cancelled?
No. Once your membership expires or is cancelled, either by yourself or Kennedy Press Pty Ltd, you must cease using member-only content from this site and remove any member-only content from any storage devices.

Why are some pages password-protected? Certain pages and articles are password-protected and only accessible to members who have attended specific PD with us. The passwords used for these pages will not grant access to member-only content on the site, and if you are already a site member, your usual login details will not provide access to these pages.

How do I make a strong password on your site? Passwords are case-sensitive. They must be at least 12 characters long and contain a mix of uppercase and lowercase letters, symbols and numbers.

How do I update the email contact (Account Manager) for our Whole School or Class/Grade Membership?
Click "View Member Account" then "Edit Profile." Scroll to Contact Info and amend the email address. An email will be sent to confirm your new address. The new address will not become active until confirmed. Where the email address can be accessed by multiple staff, we recommend nominating one person to handle password resets, as this mitigates the risk of someone accidentally locking everyone out of the site.

My school has a Whole School Account and I've forgotten the login details. What should I do?
In the first instance, contact your school Account Manager. If you don't know who your school Account Manager is, contact our Admin Team for assistance.

I have forgotten my password. Click the "Lost your Password?" link under the login button on the homepage. When prompted, enter the Username or Email Address associated with the account. Click "Reset Password" to send a password reset link to the email address associated with the account.

I need to reset my password. Log in to your account, then click "View Member Account" from the Login Box. Select Change Password, then Account Details. Follow the instructions in the "Password Change" section and click "Save Changes" to complete the process. For Whole School Account Managers resetting passwords due to staff changes, we recommend contacting our Admin Team to "Log Everyone Out" before giving out the new password.

My school isn't renewing their membership, but I still want to use the site. What are my options?
We offer discounted Individual Memberships to staff in these circumstances. Contact Admin to discuss.

Our Admin team is always happy to assist you. If you have questions about your membership, issues with the site, or questions for Tierney, do not hesitate to contact them.
